Hours	Consultant	Item	Rate	Amount
3.5	Irfan Karim	**Consulting** 08-23-2026 - Designed and configured the occupancy allocation logic in Sandbox to support Department, Room, Square Footage, Program, Usage Weight, and effective dates. The setup is intended to handle both dedicated and shared spaces, including seasonal or temporary program usage, while allowing the allocation basis to be updated easily without manually recalculating percentages each time usage patterns change.	$185.00	$647.50
1.5	Irfan Karim	**Consulting** 08-24-2026 - Meeting with Kathy / Carl and Susanna on allocation task update/ demo of all four allocation / next steps.	$185.00	$277.50
5.5	Irfan Karim	**Consulting** 08-24-2026 - Continued development and validation of the NetSuite dynamic allocation solution, including review of Department and Program mappings, KPI-based allocation logic, Saved Search data requirements, allocation schedule configuration, testing, and reconciliation of results. Conducted internal analysis and troubleshooting to validate allocation methodology.	$185.00	$1,017.50
0.75	Irfan Karim	**Consulting** 08-26-2026 - Conducted a detailed internal project health check across all active and pending tasks, reviewing current status, progress, ownership, dependencies, outstanding client inputs, blockers, and next steps. Reconciled task activity and recent communications to identify items requiring follow-up or escalation, and prepared an executive-level project status report summarizing overall project health, key accomplishments, open priorities, risks, and recommended next actions.	$185.00	$138.75

3	Irfan Karim	**Consulting** 08-27-2026 - Worked through end-to-end NetSuite allocation configuration and validation in Sandbox, including fixed payroll allocation, Department-specific KPI dynamic allocation, and post-allocation payroll driver logic. Updated source criteria and segment handling, rebuilt and validated statistical drivers/ schedules, corrected Department-level weighting, reprocessed allocation journals, and confirmed General Admin payroll was fully redistributed across the applicable Long Beach programs. Continued configuration of Batch 2 dynamic allocation using post-allocation salary balances and validated Saved Search, statistical account, and allocation schedule dependencies.	$185.00	$555.00
4	Irfan Karim	**Consulting** 08-28-2026 - Allocation Configuration / Revenue Driver Testing: Continued end-to-end Sandbox design and validation for the new revenue-based allocation methodology. Built and reconciled the revenue Saved Search against the June P&L, validated Government and Non-Government revenue populations, created sample Camp revenue transactions, and developed logic to consolidate Camp @ Home, Summer Camp, Other Camp, and direct Camp into a single Camp allocation bucket. Tested Program hierarchy/parent behavior, created the related statistical account, validated Statistical Schedule limitations with formula-based grouping, and evaluated native batching versus scripted approaches while preserving the underlying Program-level revenue reporting.	$185.00	$740.00
1	Irfan Karim	**Consulting** 08-28-2026 - Organized and updated Asana project tracking by creating six separate allocation tasks and one JE approval task to clearly manage outstanding workstreams, approvals, and next steps. Documented detailed allocation results and testing responses, including sample transactions and supporting details for business review and approval. Reviewed each allocation use case, captured pending business questions and requirements, and added them to the appropriate new allocation tasks to ensure clear follow-up, validation, and ownership before proceeding.	$185.00	$185.00
